

## big time sensuality

**BESPOKE INFUSES ALL OF THEIR PRODUCTS WITH ARTISTRY AND A GENTLE INTIMACY THAT DISTINGUISHES THE BRAND.**

For the past 30 years, Luigi Gentile has masterfully designed and crafted high-end, luxury furnishings, bringing the vision of renowned designers to life.

At Bespoke, no effort is spared in conveying the interpretation of the designer's vision prior to production and final execution. From expert hand sketching and technical drawings, to 3D modeling, rendering, and 3D printing, Bespoke removes designer uncertainty when ordering unique, custom furniture.

By working with skillful artisans, Bespoke employs age-old techniques to breathe soul and longevity into its custom upholstery and casegoods. At Bespoke, a simple idea turns into a lasting work of art.

The game room features a custom multi-directional sofa, geared to provide comfortable and casual parlor type seating. Built in atop the back, the series of cerused oak surfaces provide ample space for drinks and snacks.

In the master bedroom, black curtains complement the vivid color scheme. The Bespoke deep diamond tufted bed adds softness and texture to this sensual space.

This sun-drenched family room offers a perfect symbiosis of comfort, high style, and proportion, which makes it a favored space for family and friends to gather and party. [bespokebylg.com](http://bespokebylg.com)
